

Bakhram Abdurakhimov

Front-end developer

Hello, I am a person who has a strong passion for programming. I have experience in creating SPA with React/Redux/TypeScript. Now I am improving my skills in this direction and expanding them with new technologies. I'm planning to study Golang because my next focus is to become a Full-Stack Developer.

Experience

FRONT-END DEVELOPER, FREELANCE

React development using redux, React-redux, react-router-dom, redux-thunk, redux-toolkit, Axios, Formik, Ant-design libraries. Using next developer technologies: React/Redux/ReduxThunk RestAPI/Axios/Formik/MaterialUI/TailwindCSS/SCSS, etc. Checking the correctness of the code with Unit Tests, applying Storybook for demonstration of individual modules of the application. Using TypeScript for the best code control during development.

PROFILE

I'm a result oriented frontend developer with experience in creating Landing Pages and SPA, using React(JS/TS), Redux, HTML & CSS. Now I am improving my skills in this direction and expanding them with new technologies. And also I have interest to learn React Native. My free time is dedicated to solving katas on Codewars and boosting my English. After working as a freelancer, I would like to find a project work/full-time job in a creative company with up-to-date task and collaborative team!
